

chapter-3

Communication Barriers

They are the obstacles that stop or disturb the clear exchange of information between sender and receiver.

Types of communication Barriers :-

1.

Physical Barriers

These are caused by the environment

Examples:

Noise (traffic, people talking)
Poor internet / network
Distance between people.

Effect: Message is not heard or received properly.

2.

Psychological Barriers

These are related to feelings and mindset

Examples: Person misunderstands or ignores the message.

3. Language Barriers

These happen due to problems in language

Examples:

Different languages
Difficult words or accent
Wrong grammar

Effect: Message becomes confusing

4. Cultural Barriers

Caused by differences in culture or background

Examples: Misinterpretation of message

5. Organisational Barriers

Occur in workplaces or schools

Examples:
Complex hierarchy
Lack of proper channels
Poor management

6. Interpersonal Barriers

Problems between people

Examples:

Lack of trust
Poor listening skills
Interrupting others

Ways to Overcome Barriers:-

Communicated:-

- Use Simple and clear language
- Be a good listener
- Avoid noise and distractions
- Use proper body language
- Ask questions if confused
- Respect other's opinions
